

In the Claims

The claims have been amended as follows:

1-4. (canceled).

5. (currently amended) A corrosion inhibitor composition comprising an aqueous solution having between about 0.25% and about 5% by weight of an inhibitor material, said inhibitor material including:

- (a) about 97.5% by weight ammonium benzoate; and
- (b) about 2% by weight of triazole; and 2.5% by weight of one or more additive components selected from the group consisting of silica, triazoles, and wetting agents.
- (c) about 0.5% by weight of an imidazoline acetate.

6. (currently amended) A water-soluble corrosion inhibitor composition comprising:

- (a) about 97.5% by weight ammonium benzoate;
- (b) about 2% by weight triazoles; and
- (c) about 0.5% by weight imidazoline acetate wetting agents.
